

# $+-\times/$ Math Counts $/\times-+$

Math can be lots of fun, especially if you're using the computer!  
Use the links below to practice your facts and explore the world of Math!

## Practice Your Facts!

The following four links are simply FABULOUS and FUN!

Check them out!

[Sum Sense Addition](#)

[Sum Sense Subtraction](#)

[Sum Sense Multiplication](#)

[Sum Sense Division](#)

[A+ Math flashcards](#)

Includes flashcard creator  
for creating flashcards to print out

[Math Mania for Kids - Practice Your Facts](#)

Great site created by fourth graders,  
kids who love dogs will LOVE this practice!

[Math Cats Fact Family Cards](#)

(we can't leave the kitties out!)

AWESOME! A must see and make - all operations included

Please check out this site!

[School Bell Fact Families](#)

This is a great way for students to learn their facts!

### [Math Fact Cafe](#)

Click on a category, then on appropriate grade  
Lots here, you can create your own sheets, too

### [Math Baseball](#)

From funbrain.com

## **Ready for some offline practice?**

### [Math Worksheets](#)

Try these printable worksheets -  
Beware of pop-ups,  
but lots of choices; also included in themes

### [Surf the Net with Kids Printable Flashcards](#)

Here you will find links to help you make and print flashcards  
for math facts and more.

Author Jan Brett has created a number  
of printable sets of flashcards featuring  
many of the characters from her books.

### [Addition Flash Cards](#)

### [Subtraction Flash Cards](#)

### [Multiplication Flash Cards](#)

### [Division Flash Cards](#)

### [AAA Math](#)

All grades K-8 - includes facts and much more!  
Explanation of concept, followed by practice - terrific  
resource!

# Math Fun and Games

## [Mrs. McGowan's Fact Families Page](#)

Learning facts through families is one great strategy for kids. First grade teacher, Marci McGowan has put together a number of ideas from teachers for practicing this skill.

## [Addition and Subtraction Puzzles](#)

From author Jan Brett, these are meant to be printed out and cut apart to create puzzle games especially for K and 1

## [AAA Math - Games, Puzzles, and Riddles](#)

Get a tutorial on concepts, do some practice, and play some games. Great site!

## [Math Mania for Kids](#)

Great site created by fourth graders  
Includes math tips for kids

## [Figure This! Math Challenges for Families](#)

## [Math Cats](#)

Just a super site to get kids excited about Math

## [Cool Math 4 Kids](#)

Loads of fun games

## [Classroom Games](#)

But not just for the classroom!

[The Arithmetic Arcade](#)

Extremely challenging,  
definitely for our intermediate grades,  
but lots of interactive math, try... [Build a Bug!](#)  
very challenging, but fun!

[Storyville Math](#)

Created by second graders for second graders  
Lots of fun word problems based on second grade literature

---

For those looking for MORE

[It's About Time!](#)

Great games and more for practicing telling time!

[Math, Math, and More Math!](#)

Even more Math links from Mrs. McGowan
